Subject: [External] Solar Metering Tariffs Proposal, Docket No. 2020-229-E

Dear Chairman Justin Williams,

I am writing to register my strong opposition to Dominion Energy's proposed rooftop solar rate changes. I am a Richland County resident who recently installed solar panels on my home. I made my decision in part because of the current net-metering tariffs. Changing these now would shift the rules under my feet, and the feet of other customers like me. Furthermore, the passage of the 2019 Energy Freedom Act had led me to believe that South Carolina understood the importance of creating a welcoming regulatory environment for emerging renewables technology like solar. Dominion's proposal is short sighted and will stunt the growth of this industry in South Carolina. For these reasons I hope that you and the rest of the commission will reject Dominion's proposed changes.

Thank you for your time and for your service on the commission,
 Albert (Tyke) Nunez
